### **DETAILED ACTION**

This Office Action is in response to the Amendment filed on November 18, 2003.

#### ***Allowable Subject Matter***

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the applicant's arguments are persuasive. The applicant primarily argues that the cited art (Kuriyama) does not disclose a control method from a plurality of control methods, each corresponding to a predetermined moving distance of the positioning unit. Kuriyama only shows a method of controlling and moving various individual components, particularly for moving the galvano scanner from one conductive body to the next. Therefore, the cited art, alone or in combination, does not show a laser processing apparatus comprising a positioning unit for positioning laser light and a position controller for selecting a control method from a plurality of control methods, each corresponding to a predetermined moving distance of the positioning unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**
